Subject: FW: IG visit to Newark?

Hi Christine, Maureen and Stan.

I'm working on coordinating a tour of Newark for the IG and am thinking of doing something somewhat similar to what we did for Catherine, since he wants to hear about Superfund and Making a Visible Difference. That said, I'm not sure what all we're going to cover during the tour, but if you could let me know your availability on 8/16 and 17, I'd appreciate it. My leaning is for 8/16 from roughly 10-3, but that's pending upper management approval.

Thanks!

Liz

Subject: Re: IG visit to Newark?

Good Morning

Checking in again on the possibility of a visit to Newark with the IG. Let me know if this is something I can include in his agenda. We are looking at August 16 or 17.

Thanks in advance

Laretta

Hi Laretta. Yes, Judith likes the Newark visit idea. Let's show him something related to the Passaic River Superfund site clean up and then some Making A Visible Difference projects. Adding Sabina who should be your point person for MAVD and Walter/Nickie on Passaic.

Subject: IG visit to Newark?

Hi Lisa

Hope you are well. Art Elkins, the EPA OIG IG will be visiting Region 2 OIG staff this August. As a part of his regional visits, he usually goes on a site visit to get an idea of what EPA staff in the region are dealing with. In the past, he has visited Gowanus canal, New Town Creek and Edison lab. During a recent discussion with Catherine, I brought up the option of Newark. Catherine suggested I follow-up with you regarding a possible visit to Newark. Let me know your thoughts and whether it may be a good option.

Thanks in advance

Lauretta
